Walk for Overdose Awareness

Canyon Vista proudly represented our community at the J&M Walk for Overdose Awareness, joining individuals and organizations dedicated to remembrance, healing, and prevention. Our participation reflects our ongoing commitment to supporting families impacted by substance-use disorders and helping raise awareness about the importance of compassion, education, and early intervention. By standing together at this meaningful event, we continue to advocate for a safer, more informed community and honor those whose lives have been affected by overdose.
